

Skyline Office and Skyline Living Stuttgart

With the large-scale "Skyline" project, an ensemble of buildings is being created in the north of Stuttgart that combines modern office space with high-quality living space.

The 75 m high residential tower "Skyline Living" and the adjoining Z-shaped, five-storey flat building "Skyline Office", which comprises around 10,000 m² of gross floor space, will be supplemented by an underground car park with 345 parking spaces. The adjacent high-rise residential building will have 22 storeys and offer around 70 two-, three- and four-room apartments as well as approx. 70 furnished apartments (1 and 1.5 rooms). The ambitious construction project is being built by the Stuttgart-based project development company Bülow AG, which is investing around 96 million euros in the project as the client.

Area of expertise: Commercial

Contractor: Bülow AG

Client: Max Bögl

Project location: Stuttgart,
Theatre quarter

Skyline Office GFA: 10,000 m²

**Skyline Living Height
